

# Audubon-Linkso Engineering Company Ltd.

## Client Focus

We provide the structure for identifying the basic needs of an organization and the best means of addressing them.

We develop innovative solutions in a timely manner that provides optimum value for our clients.

We provide customized solutions to oil, gas, and power companies in the areas of refining, petrochemicals, storage facilities, oil and gas market research and studies.

We adopt a cost-effective approach to service delivery without compromising quality and safety, and this has made us a first-choice company in the oil and gas industry.

## Engineering and Consulting Services

- Process engineering
- Mechanical/piping engineering
- electrical engineering
- Instrument engineering
- Civil/structural engineering

The specific areas of proven capability include:

- Basic engineering
- Front-end engineering design (FEED)
- Detailed engineering
- As-built studies

## Serving the Oil and Gas Industry in the Nigerian Delta Region

Our expertise has led us to fully participate successfully in several projects, both local and overseas, in conjunction with our technical partners. Our range of engineering project experience includes:

### UPSTREAM

- Fixed offshore facilities
- Wellhead caissons
- Production barges
- Tank batteries
- Onshore facilities
- Process optimization/debottlenecking
- Subsea tiebacks
- Facility upgrades
- Floating/deepwater

### MIDSTREAM

- Transmission pipelines
- Compressor and pump stations
- Meter/regulator stations
- Gas processing
- Treating facilities
- Gathering pipelines
- Gas storage facilities
- Barge loading
- Distribution pipelines

### DOWNSTREAM

- Gas plants
- Petroleum refining
- Chemical plants
- Rail and truck loading
- Marine terminals
- Production storage terminals

# Audubon-Linkso

## Engineering Company Ltd.

RECENT PROJECTS	CLIENTS
Engineering Design Update For Ovade-Ogharefe Gas Plant Project (Phase II)	Pan Ocean Oil Corporation
Phase 1 Firewater System Design Project for Ovade-Ogharefe Gas Processing Plant	Pan Ocean Oil Corporation
ADA-N Platform Piping Lessons Learned Design Changes	Addax Petroleum Development (Nig.) Ltd.
ADA-A Change Order Scope of Work	Addax Petroleum Development (Nig.) Ltd.
ADA-A Extra Work Scope: 16-in. P/L Modification and Gas Lift Separator Deck Extension	Addax Petroleum Development (Nig.) Ltd.
ADA-A Instrument Cable Tray and Layout Scope of Work	Addax Petroleum Development (Nig.) Ltd.
KTM Piping Load Distribution	Addax Petroleum Development (Nig.) Ltd.
Pipeline and Pipeline Topsides Design and Drafting-Water Injection Proposal	Addax Petroleum Development (Nig.) Ltd.
6-in. Riser Relocation and Location of Gas Filter on Gas/Platform	Addax Petroleum Development (Nig.) Ltd.
Change Order - Pipeline & Pipeline Topsides Design and Drafting-Water Injection Platforms	Addax Petroleum Development (Nig.) Ltd.
Piping Stress Analysis for Water Injection Piping on Knock ADOON FPSO	Addax Petroleum Development (Nig.) Ltd.
Structural Point Loading for Water Injection Platforms (Change Order 1 for Pipeline and Pipeline Topsides Design and Drafting)	Addax Petroleum Development (Nig.) Ltd.
SACS Model Review (Change Order 2 for Pipeline and Pipeline Topsides Design and Drafting)	Addax Petroleum Development (Nig.) Ltd.
Ebughu Tripod Structural Analysis	Addax Petroleum Development (Nig.) Ltd.
Tie-In 16-in. KTM Production Line at TPU Piling A 36-in. Caisson to Support the 16-in. Riser	Addax Petroleum Development (Nig.) Ltd.
Conceptual Study for Antan Field Development Wellhead Platform	Addax Petroleum Development (Nig.) Ltd.
Project Mgt. Consultancy Service on Calabar-Umuahia-Ajaokuta	Ministry of Petroleum Resources
Basic Engineering for OML 58 Old NPS Piping Replacement at Obagi Flow Station	TotalFinaElf
ADN-A-(R) Platform Modification	Addax Petroleum Development (Nig.) Ltd.
Provision of Labour Services for Project Engineer (Instrumentation)	Addax Petroleum Development (Nig.) Ltd.
Green House Gas Emission Monitoring Sampling Points Installation	TotalFinaElf
